

Free Checked Baggage Allowance for Charter Flights

Baggage allowances for Alliance charter flights are determined in consultation with the charter customer. Passengers on Alliance charter flights should check with the organisation chartering the aircraft for applicable limits.

Checked Baggage Limits

In addition to the above requirements note that the total linear dimensions (i.e. Length plus Width plus Height) of any item of baggage must not exceed 158cm. Note that some ports throughout our network impose reduced weight limits based upon local OHS policies. Any item of baggage exceeding the size or weight limit will not be accepted at passenger check in.

Excess Baggage

Charges apply for any weight in excess of the Alliance Airlines free baggage allowance. The rates are \$15 per kilogram, subject to space availability.

Excess Baggage Carriage Restrictions

Excess baggage is carried subject to space availability and hence may not be carried on the same service as you. Excess baggage is only carried to the airport specified on the Alliance Airlines baggage tag. You are responsible for collection of excess baggage and/or any other related delivery expenses.

Free Baggage Entitlements When Connecting to Another Carrier

When connecting with an International carrier's services, passengers holding a ticket for international carriage (being for carriage between two or more countries) are entitled to the IATA standard checked baggage allowance (weight system), in respect to the Alliance component of the itinerary. Baggage in excess of the Alliance weight allowance up to the IATA standard checked baggage allowance is carried free of charge subject to space availability and hence may not be carried on the same service as the passenger.

Valuable Items

Alliance Airlines will not be liable for loss, damage to or delay in the delivery of delicate, brittle, fragile or perishable items, money, jewellery, precious metals, securities, passports, title deeds, artefacts, manuscripts or other valuables (including but not limited to cameras, videos, laptops and other electronic equipment) which are included in your checked baggage whether with or without Alliance's knowledge.

Valuable items should be carried on your person or in your carry-on baggage and under your care. If the aforementioned items are checked in as baggage, you agree that those items shall be at their own risk and shall indemnify and hold Alliance Airlines harmless for any loss in respect thereof.
