FOKKER 70 VIP

The Fokker 70 VIP (F70 VIP) is a Business Class luxury jet aircraft exclusively powered by reliable Rolls Royce Tay 620 turbo fan engines. The combination of low weight, aerodynamic design and high performance engines make the F70 VIP the ideal aircraft for non-stop services from the coast of Australia to a range of international and domestic destinations.

The passenger cabin offers a comfortable and spacious interior including 48 luxury leather business class seating configuration with 37 inch seat pitch and substantial overhead and luggage space. The F70 VIP is also equipped with a downward opening door with integral stairs that are fully jet way compatible, providing maximum operational flexibility.
