ASX Release

Alliance Aviation Services Limited (“Alliance”) (ASX: AQZ)

Correction of previous announcement - BHP Nickel West Operations

Alliance earlier today released an announcement relating to its contract with BHP Nickel West.

The announcement contained data that reflected the flight hour activity impact of the changes to BHP Nickel West’s operations. An administrative error occurred whereby block hours and not flight hours were used in part of the calculation.

The paragraphs impacted has been amended and is shown below with the correct calculations used.

“Alliance’s services for BHP Nickel West occupy two Fokker 100 aircraft, effectively full time, operating 3,140 flight hours per annum in aggregate.

During FY24 those hours represented 3% of total company flight hours and with the growth in other areas of the business forecast for FY25 hours would have fallen to 2.5% of total flying hours.”

There are no other changes to the earlier release.

Alliance apologies for this administrative oversight and has updated it processes to ensure it does not occur again.
