## GROUP OVERVIEW

\* This is not a statutory number

#Operating cashflow is net of aircraft purchased for inventory.

The Group has consistently prioritised safety, punctuality, and financial sustainability. In the first half of 2025, the fleet expanded with the addition of three E190 aircraft, bringing the total to 38 aircraft, along with one additional Fokker 100 aircraft which brought the total Fokker fleet to 38 aircraft. The Group also entered into agreements to sell six E190 airframes and 13 Rolls-Royce engine cores, with deliveries commencing in December 2024 and scheduled to be completed by June 2025. The Group's profitability benefited from having re-signed major components of the contract book in prior periods, with no major contract reviews occurring in the first half of 2025.

Due to downward pricing pressures on the global nickel market, BHP Nickel West announced in September 2024 that they would transition their operations from full production to care and maintenance by December 2024. This transition has led to a reduction in services from 24 per week to seven per week which has impacted the Contract revenue stream .

Alliance has felt the impact of the national rise in industrial action within the aviation sector. Protected industrial action (PIA) and disputes relating to pay and working conditions have affected the Group's cost base. In September 2024, Brisbane engineers' PIA led to cancelled flights for our customers and a backlog of maintenance tasks. Furthermore, two aircraft were sidelined for three and 12 weeks respectively due to structural damage. These issues significantly impacted the Group's on-time performance and reliability statistics, revenue and profit for the first half of the 2025 financial year.

## REVENUE FROM CONTINUING OPERATIONS

Contract	Charter	Wet Lease	RPT	Other	Total
<b>\$153.6m</b>	<b>\$7.2m</b>	<b>\$160.1m</b>	<b>\$5.9m</b>	<b>\$6.2m</b>	<b>\$333.0m</b>
1H24: \$154.7.0m	1H24: \$8.1m	1H24: \$127.6m	1H24: \$6.3m	1H24: \$2.6m	1H24: \$299.4m
Decrease: 0.7%	Decrease: 11.1%	Increase: 25.5%	Decrease: 6.3%	Increase: 129.6%	Increase: 11.3%

- **Contract revenue** reported a decrease of \$1.1m or 0.7% when compared to the prior comparative period (\$154.7m). The Contract revenue stream generated a result reflective of the strong contract renewals in prior periods offset by lower fuel prices and the downturn in the world nickel market.
- **Charter Revenue** reported a decrease of \$0.9m or 11.1% when compared to the prior comparative period (\$8.1m). Charter revenue was again impacted by aircraft availability with airframes being prioritised to Wet Lease and Contract revenue operations.
- **Wet Lease Revenue** reported an increase of \$32.5m or 25.5% when compared to the prior comparative period (\$127.6m). Wet Lease activity benefited from three additional aircraft being deployed to operate Wet Lease flying in 1Q25; however, this growth was curtailed in the last quarter of 1H25 with two aircraft sidelined with structural damage.
- **RPT Revenue** reported a decrease of \$0.4m or 6.3% when compared to the prior comparative period (\$6.3m). This decrease is aligned with the Group's strategy of supplying capacity to high utilisation Wet Lease flying and Contract Charter clients.
- **Other Revenue** Aviation Services revenue reported an increase of \$3.6m or 127.2% when compared to the prior comparative period (\$2.6m) due to the timing of inventory sales transactions.

## CASH FLOW

Operating	Investing	Financing	Net Cash Flow
<b>(\$15.1m)</b>	<b>(\$103.4m)</b>	<b>\$106.9m</b>	<b>(\$11.6m)</b>
1H24: \$12.0m	1H24: (\$42.4m)	1H24: \$45.0m	1H24: \$14.6m
Decrease: \$27.1	Increase: (\$61.0m)	Increase: \$61.9m	Decrease: \$26.2m

**Net Cash Inflow (Outflow) from Operating Activities** reported a decrease of \$27.1m or 224.8% when compared to the prior comparative period (\$12.0m). The following are factors that affected the operating cash flow in the first half:

- Inventory purchases included four aircraft purchased for inventory of \$42.3m (1H24: \$28.4m); and
- As the growth program advances, the Group's debt levels have risen, leading to interest payments being \$4.3m higher than the prior comparative period.

**Net Cash (Outflow) Inflow from Investing Activities** reported an increase of \$61.0m when compared to the prior comparative period.

- Recognising the need for more hangar space in Brisbane, the Group seized the opportunity to purchase additional hangars located adjacent to the current facilities. This strategic acquisition, valued in total at \$20.9m, will support the needs of the growing fleet and accommodate future increases in demand. In 1H25 the final payment of \$19.6m was settled.
- The Embraer program, along with associated costs—including entry into service expenses and the purchase of an additional three E190 aircraft—totalled \$48.5m.
- Ongoing heavy maintenance checks (\$19.5m) and Engine care programs (\$12.0m) continued in 1H25. The Rolls-Royce engine care program ended on 31 December 2024.

**Net Cash Inflow (Outflow) from Financing Activities** reported an increase of \$61.9m when compared to the prior comparative period.

# Director's Report

for the half year ended 31 December 2024

- In August 2024, the Group successfully refinanced \$64.8m of its existing debt facilities and increased its debt facilities by \$100m with the Australia and New Zealand Banking Group Limited (ANZ). Simultaneously, the Group secured an additional \$50m from Pricoa Private Capital.
- The Group drew down on these debt facilities by \$111.7m in the half year to cover E190 aircraft settlements, entry into service costs, and the acquisition of additional hangars at Brisbane Airport.
- The Group made total repayments of \$3.7m towards ANZ term loan facilities II and IV.

## CAPITAL EXPENDITURE

Capital expenditure for the period was \$145.7m (1H24: \$81.4m).

Existing Capex	Growth Capex	Total Capex
<b>\$59.7m</b>	<b>\$86.0m</b>	<b>\$145.7m</b>
1H24:\$65.0m Decrease: \$5.3m	1H24:\$16.4m Increase: \$69.6m	1H24:\$81.4m Increase: \$64.3m

**Capital expenditure on pre-existing fleet** and services was \$59.7m with base maintenance and engine care programme costs being the key drivers. The Group's base maintenance program has increased to three lines and this will continue throughout FY25 and beyond. The Rolls-Royce engine programme expired at the end of December 2024.

**Growth capital expenditure** incurred during the half-year was \$86.0m which included the acquisition of three E190 aircraft, entry into service costs, and the expenditure related to the acquisition of additional hangars at Brisbane Airport. A summary of the capital expenditure is shown below.

### B2 - BORROWINGS

The Group's borrowings increased in the half year ended 31 December 2024 to \$445.0m (FY24: \$337.1m).

In August 2024, the Group completed both a refinancing of its existing debt facilities of \$64.8m and increased debt facilities by \$100m with Australia and New Zealand Banking Group Limited. At the same time, the Group increased its debt facilities with Pricoa Private Capital in an amount of \$50m. The increased and renewed debt facilities have provided the funding required for the Group to settle its aircraft and hangar acquisition commitments.

The refinancing of the ANZ debt facilities has provided the following:

- Facility I remained at \$15m with an extended expiry to July 2027.
- Facility II increased by \$50m to \$87.3m with an expiry in July 2027.
- Facility III remained at \$12.5m with an extended expiry to July 2027.
- Facility IV, a no redraw facility, was established for \$50m with an expiry date of January 2026. Discussions have commenced with ANZ to extend the expiry date of this facility and Management is confident that this will be finalised before 30 June 2025.
- A reduction in the working capital multi option (Facility I) to \$4m.

## B. CASH MANAGEMENT (CONTINUED)

### B2 - BORROWINGS (CONTINUED)

To date the Group has elected to process all drawdowns in AUD therefore minimising ongoing exchange variation risks.

As at 31 December the Group has drawn down USD211.0 million equivalent to AUD 301.2 million and has access to a further USD14 million.

The Group leases various offices, warehouses, and equipment. Rental contracts are typically made for fixed periods of six months to eight years but may have extension options as described in further detail below.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Right of Use additions of \$10.9m represent the ground leases relating to the new hangars at Brisbane airport. These leases, with options expire in April 2042.

This note provides information for leases where the Group is a lessee.

Extension and termination options are typically included in property leases across the Group. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of the extension and termination options held are exercisable only by the Group and not by the respective lessor.

## H – OTHER ITEMS

### H1 – CONTINGENCIES AND COMMITMENTS

#### CONTINGENT LIABILITIES

Alliance has on issue six bank guarantees relating to existing leases totalling \$0.85m (FY24: \$0.62m).

#### CAPITAL COMMITMENTS

The Group has been a party to a Total Care Services Agreement with Rolls-Royce for the maintenance of Fokker 100 aircraft engines. The agreement was based on engine operating hours for 46 Tay 650-15 engines and was payable monthly in arrears. The agreement expired on 31 December 2024. The Group will not incur any further commitments under this agreement.

The Group entered into a sale and purchase agreement for an additional 30 Embraer E190 jet aircraft from AerCap Ireland Limited in February 2023.

The final purchase price for each aircraft will be adjusted for the maintenance status of the airframe and the two fitted engines in the week preceding each delivery. Accordingly, there is a significant degree of variation in the unit cost and a firm fleet price is unable to be given at this time. A total of 10 aircraft were settled in FY2024 with an additional 7 aircraft settled in 1H25 leaving 13 aircraft to be purchased with the last aircraft to be settled in 2H26. The final purchase price of the remaining aircraft purchases is estimated to be approximately USD103m.

## **Auditor's responsibilities for the review of the half-year financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
