

Alliance AIRLINES Embraer 190

The Embraer 190 (E190) aircraft complements our hugely successful Fokker fleet of aircraft, to support the airlines' growth plans and fleet enhancements. It fits perfectly in the market for a regional aircraft with mainline capabilities, delivering impressive economics, excellent performance and operational efficiencies.

The E190 offers customers one of the most spacious interiors of all single-isle aircraft, and is fitted with a two-and-two seating configuration in the cabin for enhanced passenger comfort and convenience.
